

Track	Vendor	Title	Description
Cloverleaf	Infor	Cloverleaf roadmap	
Cloverleaf	Infor	Cloverleaf demonstration of GA features in 6.1.1 / 6.1.2	
Cloverleaf	Infor	Global Monitor demonstration 6.1.1	
FIN	Infor	Best Practices for Infor Lawson Accounts Payable	Are you getting the best use out of Infor Lawson Accounts Payable? Learn techniques to improve daily invoice processing and discover solutions to resolve issues encountered during vendor maintenance, invoice maintenance and payment processing.
FIN	Infor	Best Practices for Infor Lawson Asset Management	Discover how Infor Lawson Asset Management helps you better track your assets, calculate depreciation and report on them. Attend this session to learn how configuring defaults helps you monitor your assets throughout the lifecycle.
FIN	Infor	Close & Reconciliation Management Overview	Come to this session to hear how your organization can improve efficiency of tracking month-end close tasks by standardization of close processes and reporting.
FIN	Infor	Infor Lawson Accounts Payable - Follow the Invoice Data	Each day you process transactions, create payments, run update processes and inquire on data inside Infor Lawson Accounts Payable. Attend this session to gain a deeper level of detailed processing knowledge focused on how AP information is updated and stored.
FIN	Ascend	Get your AP Automation Project to Pay for Itself by Reducing Cost and Preventing Fraud	Learn how to detect and prevent employee fraud through Ascend's SmartTouch AP Imaging and Automation solution. In addition, Ascend's Financial Automation Suite will increase visibility, improve AP controls, convert paper-based tasks to paperless, route invoices for approval, plus approve invoices on mobile devices. <i>Ascend has the only "Real-time" Infor Lawson AP transaction integration, which reduces steps and cuts your AP process in half.</i>
FIN	Avalara	Simplifying Sales and Use Tax Compliance	Doing sales tax right is time-consuming, resource intensive and not core to your business. Doing sales tax right means having accurate tax information for a valid address, knowing the rules, keeping up-to-date with the latest changes, being able to access the information necessary to file and remit quickly and easily, as well as being prepared for defense in the event of an audit.
FIN	Bails	Fun with GL data	Many clients use a combination of GL90/95, Report Writer, Crystal Reports, LBI and/or Data Warehouses to do GL analysis. These tools all have their strengths and weaknesses. However, using a combination of Add-in's and Excel, you can do a whole lot of slicing and dicing without too much effort. The techniques we'll show you require no complex macros or Visual Basic – just straight Excel and Add-in's. The tools we'll show you can also be applied to other Lawson modules, including Financials, Supply Chain and HR/Payroll.

<b>FIN</b>	CFO Solutions	Migrating from Lawson Budgeting & Planning (LBP) to Infor d/EPM	Infor has announced that by the end of 2016, Lawson Budgeting & Planning (LBP) will no longer be eligible for standard support. Participants of this session will discuss how existing LBP clients can migrate their licensing and implement the baseline Infor d/EPM planning and workforce modules to perform core budgeting and planning. We will also discuss how d/EPM can take your organization well beyond the basic planning you are accustomed to in LBP, and perform fully integrated business planning where operational data is leveraged to perform fully driver-based planning, monthly reforecasting, scenario planning, and what-if analysis. Whether you'd like to plan using RVUs for physicians' groups, DRG volumes for health care facilities, or individual product SKU sales and cost volumes for manufacturing firms, this session will help you think about how your organization can plan more efficiently and holistically than LBP ever allowed.
<b>FIN</b>	Lexmark	Introducing Perceptive Connector for Infor Lawson AP Invoice Automation	Description: "Discover a new integration framework for communication between Perceptive Content from Lexmark and Infor Lawson AP automation functionality. See how it enables seamless creation of accounting and invoice processing transactions."
<b>FIN</b>	SELUG	Roundtable for v10 upgrade experience - Financials	Facilitated by Jason Gardner and Nancy Jesse
<b>FIN</b>	RPI	Activity Management: Bring Your Projects out of the Shadows	Learn how Lawson's Project Accounting (AC) can help your organization keep track of project expenditures, and project budgets including PO and RQ commitments. Review all the cool things organizations have done with Activities.
<b>FIN</b>	RPI	Lawson AM: Game On!	Learn everything you need to know about creating, depreciating, disposing and transfer Assets in Lawson's fully integrated module, including how to leverage Asset Templates in PO and AP and how to Capitalize Assets through Activities.
<b>GEN</b>	Infor	Getting the Most Out of Infor Lawson Add-Ins for Microsoft Office	Increase your Infor Lawson Add-Ins for Microsoft Office skills. In this advanced session, learn how to take advantage of these tools to streamline work processes in your organization.
<b>GEN</b>	Infor	Cloud: It's about transforming your business	Helping the customers get to the Cloud... What if you could lower your Total Cost of ownership on a mission critical application like ERP, while improving flexibility, disaster recovery, and performance? You can with Infor CloudSuite. Come hear how customers like you are transforming their business with CloudSuite. Hear analyst's findings that are fueling the move to cloud ERP as one of the most significant technology trends.
<b>GEN</b>	Infor	Infor Lawson Information Investigator and Infor Support Assistant for	Hear how you can get up to date reliable information about your Infor Lawson system solution and use that information in your day-to-day operations. Save time in your day-to-day operations and interaction with Infor's Xtreme Support team by having your product and version information stored in Infor Xtreme. In

		Proactive Support	in addition, see how you can quickly see which patches are available and not applied to a specific environment.
GEN	Infor	Infor Upgrade X Program	“Infor Upgrade X Program is specifically designed to help you get more value from your current maintenance and operations spend. Find out how upgrading your solution to the cloud and can save you money while providing a strategic platform to grow your business. Hear how other customers in your industry have taken advantage of this program and are seeing the benefit of running their applications in the Cloud.”
GEN	Knowledge Solutions	Cloud Security Considerations	Learn from other company’s mistakes. Is my cloud-deployed application secure? Should I move my application to the Cloud? Will it meet my compliance requirements
GEN	MHC	Finance-Focused Roundtable Discussion: Best Practices for Effective Electronic Document Management	You’ve heard how electronic document management (EDM) can make you more efficient by reducing paper and automating manual business processes. You understand the <i>why</i> of electronic document management, but perhaps you’re still wondering, “ <i>How?</i> ” In this session, MHC will use our document management expertise to facilitate discussion around best practices and uses of AP automation, electronic invoicing, and other finance-focused electronic solutions. This will be an information sharing session; come prepared to discuss what works/doesn’t work for your organization.
GEN	TEAMabsolute	CloudSuite/Upgrade X: What you need to know	CloudSuite is a crucial upgrade path to consider. TEAMabsolute can provide the information you need to make an informed decision on UpgradeX/CloudSuite’s features and functionalities, and the planning processes to keep in mind before, during, and after your upgrade.
GEN	Dashboard Gear	Set Your Data Free	Dashboard Gear will demonstrate innovative new ways that you can use to report and analyze your enterprise data. Examples will cover Finance, Supply Chain and HR/PR
GEN	Velocity	Maximizing your investment on Infor 10, with innovation that delivers	Innovation, expertise and system optimization equate to peak performance. Velocity will demonstrate with our analytical tools and expertise how to maximize peak performance in your system.
GEN	SELUG	Factors to Consider Before Moving to the Cloud	Topics to include some or all of the following: Database Conversion (Oracle to MS SQL); Reports, Interfaces, Customizations, and Extensions (RICE); Acceptable Infor Tools you can use in the Infor Cloud (IPA/Landmark version); Coming Improvements with Cloud Migrations and Support; Pre-work checklist; ADFS Trust; User Migration and Security
GEN	Velocity	The New IPA model	This session describes new features, functionality and comparisons to the previous version of LPA. The presentation will answer a lot of questions and generate new questions for an organization on what the benefits may be if the decision is made to go to IPA.

<b>GEN</b>	Infor	Customizing Infor Smart Office	From Personalization to Mashups to Scripting, there are a lot of ways that you can customize your Infor Smart Office forms to fit how you work. See a quick overview of the possibilities awaiting you in Infor Smart Office.
<b>GEN</b>	Dashboard Gear	Modernize your Reporting	What to do to modernize your reporting and distribute your data. A cost effective alternative to LBI.
<b>HCM/PR</b>	Infor	Explore a Consolidated Approach to HCM	Infor HCM is growing rapidly with not only new solutions and feature functionality but with a fresh and innovative approach to supporting your HR initiatives. Join us to learn how we have grown to give you the breadth of solutions to your needs and how these will help you better plan, select, deploy, develop, measure, and reward your workforce.

<b>HCM/PR</b>	Intellias	Simplifying the Infor Lawson on-line Benefit Enrollment with Intellias Benefit Addins	Eliminate the Pains of Your Benefit Enrollment. Intellias' Benefit Addins software is an enhancement product that fills the requirement gaps of the Infor Lawson Online Benefit Enrollment. It provides a user friendly, efficient benefit enrollment experience, while reducing administration and audits required with the vanilla enrollment. ? Is your current benefit enrollment meeting your needs? ? Does your organization have benefit plan tiering or benefit dependencies requirements for HSA, FSA, High Deductible Medical, Employee Life, and Spouse Life? ? Does your organization have additional approvals processes needed to address EOI or dependent verification?
<b>HCM/PR</b>	KeyMark	Human Capital Management: Beyond Employee File Management	For many companies, human resources involves human capital management (HCM) with practices related to people resource management. Departments must maintain a lot of content, while also meeting the demands for security and compliance. HCM requires managing content in paper files, on file shares, in spreadsheets, and in other "point" software applications. Because not all content fits easily within an HRIS/HCM application, it can lead to process inefficiencies, as well as compliance risk.
<b>HCM/PR</b>	Maryland-National Capital Park and Planning Commission	Lawson HCM EMSS rollout planning and strategies	· Lawson HCM EMSS rollout planning and strategies

<b>HCM/PR</b>	Maryland-National Capital Park and Planning Commission	Lawson implementation lessons learned (EFM, SCM, HCM, LBP)	Lawson implementation lessons learned (EFM, SCM, HCM, LBP)
