| Close & Reconciliation Management Overview | Come to this session to hear how your organization can improve efficiency of tracking month-end close tasks by standardization of close processes and reporting. | Colleen Holm |
| Customer Experience Update | Now that you've had your product updates, come find out the rest of the story.... What else is happening to improve your overall Customer Experience!!! | Yvonne |
| Escheatment and stale dating within CloudSuite Financials | All states require reporting unclaimed payments. Join this session to learn how Infor streamlines escheatment processing and stale dating payments. | Colleen Holm |
| Getting started with Spreadsheet Designer | See how this user-friendly tool for Microsoft Excel can generate ad hoc queries and automate data uploads. You'll hear tips that, as a general user of Spreadsheet Designer, you may not have discovered on your own. | Don Peterson |
| Getting the most out of Lawson Add-Ins for Microsoft Office | Find out how to improve your skills with Lawson Add-Ins for Microsoft Office. In this advanced session, you'll learn how you can use these tools to streamline work processes in your organization. | Don Peterson |
| HR and Technology: How AI will change everything | There have been milestones that have been documented throughout human existence. Critical points in our evolution that mark a distinct change within a short timeframe that sets off an explosion of new behaviors, emotions, and cultures. Many experts believe we have just entered into the next cycle, another demarcation.....Artificial Intelligence or A.I. A recent national study conducted by Harris Poll found that 55% of HR managers believe artificial intelligence will become a regular part of HR within the next five years. In this thought provoking session, we will look at the basic elements of AI and how AI can expand the potential of your workforce. AI should not be feared as a "job killer" but rather a "job elevator", enriching the daily activities of your employees. Additionally, we will discuss what is on the horizon for AI and the benefits of HR embracing AI to solidify its role as a strategic organizational leader. | Erica Doherty |
| HR's transformational leap from reporting to analytics | Over the past decade, organizations have embraced technology to support their operational initiatives. The amount and type of information being collected is staggering compared to just a few years ago. Human Resources is a prime example of this, but to what end? Traditionally, HR has relied on static, aged reporting to understand what happened in the past. It's time to start looking forward. Join us to discuss the value of transforming HR from reporting to an analytics. We will look at the advantages of using "real time" data, predictive analysis, and personalized dashboards to assist your workforce in their daily activities. We will also look at the power of data integration, shedding light on the amazing possibilities that become available when disparate back office data is merged with your functional front line activities. | Erica Doherty |
| Infor Lawson AP Invoice Automation | Payables departments can face innumerable challenges processing inbound invoices. The team must ensure that all invoices are coded and routed properly, and approved and paid in a timely manner. Come see an overview of Infor Lawson Accounts Payable Invoice Automation and collaborate with us to influence enhancements and new product features. | Colleen Holm |
| Lawson for Infor Ming.le 10.1.0.0 User Experience | The new Lawson for Infor Ming.le 10.1.0.0 user experience delivers the latest Infor Hook & Loop 4.0 HTML5 controls. Themes, user configurable contrast, Americans with Disabilities Act (ADA) section 508 compliance, responsive design, better use of available screen space, improved navigation and more are enabled by Infor Hook & Loop's 4.0 HTML5 controls. Attend this session to learn what's available with the new Lawson for Infor Ming.le 10.1.0.0 user experience. | Andy Buboltz |
| Lean IT? No Problem: A Digital Transformation Case Study with KidsPeace | How can your lean IT organization support digital business transformation, as well as the Infor super users within your organization? In this session, KidsPeace, a private charity dedicated to serving the behavioral and mental health needs of children, families and communities, discusses the ease of a recent upgrade, the power of ERP application metadata in security decisions and digital transformation - all with a lean IT shop. | Velocity |
| Reinventing the General Ledger | Let us introduce you to the new features in Global Ledger, including support for multiple sets of accounting books, flexible accounting strings, unlimited attributes and extensive currency support for global organizations. | Andrew Wolling |
| Security reporting in Lawson System Foundation (LSF) and Landmark | Learn about security reporting options from the Lawson Security Administrator (LSA/LSF) and Rich Client/Spreadsheet Designer (Landmark). You'll learn about the available security reports, where to find them and how to run them, how the security reports can be used for internal and external auditing, and advanced security reporting techniques. | Delmar Dehn |
| Using Lawson Design Studio to Improve Data Entry Efficiency | In this session we will discuss the importance of customizing the user interaction to meet the needs of your users. Gain knowledge and learn how to make simple improvements more efficiently and how to deal with customizations that have an impact on the overall performance of the product. | Don Peterson |
| What's New in Supply Chain for Purchasing and Inventory Control for v10 | Attend this session to learn about what is new and next for Purchasing and Inventory Control. | Sue Moerlein |
| I'm on v10.... What's Next? w/ RPI | | Richard Stout |
| Understanding Jobs and Positions, The Cornerstone of Human Capital Management w/ROIHS | Job and Position structures are the key to talent management processes. Join us for this educational session where you'll learn key considerations for building out Jobs and Positions, how to structure the set up within Infor HCM and how to start transforming your organization to a talent-driven culture. | ROIHS |
| Still on Lawson 9: Upgrading Options and what to expect when on and going to Version 10 or 11 or Cloud | Come and find out what your options on if you are still on Version 9 | Mark Neal VP Hybridge |
